Antrim Masters football for everyone

What is Masters football?

Masters is a collection of Gaelic footballers **aged 40 or over** in the current playing year and who refuse to give in to the impact of time at the end of their team sporting careers. We compete on club football pitches across Ireland against other Counties who have a Masters set-up.

The objective of Masters football is simple - to **maintain health and fitness** whilst enjoying both the social and competitive aspect of competition and to both renew and make new acquaintances along the way.

Masters football is **open to everyone** that wants to participate. We have running substitutions and everyone that turns up will get to play. Insurance is covered through a group scheme and registration is **compulsory** to all who want to play.
